UW-Milwaukee College of General Studies Waukesha Continuing Education Program Fund

Mission:

It is the mission of the Continuing Education department at UW-Milwaukee College of General Studies – Waukesha to provide the Waukesha County community with quality, educational opportunities where needs exist and adapt program offerings based on the current need of the community.

Purpose:

The purpose of the program fund is to provide educational opportunities to the Waukesha County area. UW-Milwaukee College of General Studies – Waukesha Continuing Education serves individual students of all ages, as well as various businesses and organizations. These programs include providing business skills and trainings for professionals and businesses, second careers, computer technology and data science, engineering and project management skills, financial and retirement education, and educational travel programs. More program areas include liberal arts exploration of music, art, languages, meditation, healthy lifestyles, and Buddhism.

Current youth outreach includes our collaborative WacSEF (Waukesha County Science Engineering Fair), our collaborative Milwaukee County Extension 4-H SySTEMatics program, GEMS (Girls Engineering, Math, Science) Conference, and summer youth STEM University. It is our belief that early exposure to college programs and educational opportunities will help to develop career pathways and promote higher education.

Continuing Education strives to provide the Waukesha community with the highest quality educational programs. To continue to offer high quality programs, donations will be used for program development and costs, including program supplies and materials, instructor or speaker fees, program scholarships, and materials needed for the success of the program.
